LETTER OF RECOMMENDATION

Dear Admissions Committee,

09 March 2023

I am writing to recommend Praveen Kumar Ojha (Employee Number – 33392775) for any professional opportunity that he may be applying for. I have had the pleasure of working with Praveen since he joined Bosch Global Software Technologies in September 2019.

As a Process Mining Consultant working in Celonis Process Mining Tool, Praveen has consistently demonstrated exceptional skills and qualities that make him an asset to our organization. He has proven his expertise in both data modelling and dashboard design, and has worked on various processes like O2C, P2P, and B2C (bill to cash). As a Lead developer, Praveen has supported many Bosch business units and has contributed significantly to their success.

Praveen has been promoted to Senior Associate Consultant during his time at Bosch, which is a testament to his abilities and dedication to the organization. In addition to his technical skills, Praveen is a very good communicator and an excellent collaborator. He has the ability to work effectively with colleagues at all levels of the organization, and he is always willing to go above and beyond to help the team achieve its goals. Praveen's positive attitude and team spirit make him a pleasure to work with.

Praveen's contributions to our organization go beyond his technical expertise. He has actively contributed to many organizational activities and has played an important role in creating a positive work culture. I had the pleasure of witnessing his dedication and commitment to our organization when he attended the "Celonis Coreteam Meet" workshop in Gerlingen, Germany. In conclusion, I highly recommend Praveen for any "Higher Education" opportunity he may be applying for. His strong work ethic, excellent technical skills, and ability to work well with others make him a great prospect to your academic Institution. Please do not hesitate to contact me if you have any questions or require further information.

Yours sincerely

Bosch Global Software Technologies Private Limited
